

Alejandra Sierra

Tech Lead & Full-Stack Developer

About Me

Full-Stack Developer turned Tech Lead, with a profile combining frontend and backend development, technical leadership, and a solid background in web design and UX/UI. I led the setup of the development area for a 4-product Legal Tech SaaS platform—now serving over 100 client companies—, bringing in-house a previously outsourced development and implementing sprint methodology, code reviews, and quality control. I combine hands-on development (Vue, PHP, GCP) with technical leadership and product vision.

Work Experience

Laworatory — Legal Tech / Regulatory Compliance

Tech Lead (July 2025 – Present)

- Led the setup of the development area, bringing in-house a previously outsourced development and implementing task management, sprints, testing, and code reviews.
- Coordinate the development and maintenance of the platform's 4 products.
- Establish and ensure adherence to the team's working methodology.
- Oversee compliance with deadlines, deliverables, and quality standards, with continuous monitoring of the team's work.
- Maintain an active role in full-stack development, combining hands-on coding with leadership responsibilities.

Full-Stack Developer (July 2023 – July 2025)

- Developed full-stack features: frontend with Vue.js (2 and 3), Vuex, HTML, and CSS; backend with PHP, focused on scalable, maintainable, and UX-centered applications.
- Designed and implemented REST APIs for service-to-service communication.
- Managed and modeled data in relational (SQL) and non-relational (Google Cloud Datastore) databases.
- Operated infrastructure on Google Cloud Platform (App Engine, Cloud Tasks, cron jobs, Cloud Logging).
- Version control and team collaboration with Git and GitLab.
- Took part in the Legal Tech product lifecycle, from interface definition and design through to production deployment, contributing technical judgment and a UX focus.

Estrategia de Marketing en la Red (EMRED)

Front-end Designer (July 2022 – July 2023)

- Design and development of websites, HTML markup, and digital design for Marketing Automation.

eNubes

UX/UI Internship (October 2021 - April. 2022)

- Interface design, usability, and web layout.

Freelance

Brand identity design and web projects (HTML/CSS).

Avianca S.A.

Cabin Crew (2014 - 2021)
